

Innovating Projects with Data Intelligence

Key Highlights

Driving change since 2021

18 Strategic collaborations

23 Projects delivered

200+ Expert Resource Pool

Vision 2030

By 2030, Ellipsis Global Inc will drive data-driven development, sustainable planning, and innovation across South Asia and beyond. We empower governments, partners, and organizations to achieve the UN Sustainable Development Goals through:

- Evidence-based strategies
- Smart geospatial intelligence
- Innovative program design and performance management

From 2025–2030, we will expand into climate resilience, digital transformation, and inclusive growth, becoming a trusted partner for sustainable impact.

Our 2030 Vision: Where data, design, and decision-making converge to shape a better future.

Our Journey

Ellipsis Global Inc, we transform ideas into actionable solutions that drive growth, innovation, and sustainable impact.

Founded in 2021 as GECC (Geomatic Engineering and Consultancy Corporation), we started with GeoSpatial engineering and consultancy, delivering precise, data-driven solutions for infrastructure, natural resource management, and sustainable development. From day one, GECC emphasized innovation, technical excellence, and client trust.

Over the years, we expanded our expertise:

- 2022 – Foundations: GIS, remote sensing, GeoSpatial surveys, and natural resource analysis.
- 2023 – Expertise: Added capacity building, research, and information management.
- 2024 – Horizons: Introduced strategic advisory and digital solutions.
- 2025 – Ellipsis Global Inc: Expanded to Project & Program Management, Strategic Consulting, and Digital Solutions, symbolizing continuity, connection, and limitless possibilities.

Today, Ellipsis Global Inc empowers organizations to navigate complexity, manage resources efficiently, and achieve measurable, lasting results through smart strategy, innovation, and collaboration.

Our Expertise

Experts in Strategy, Research & Geospatial Solutions Turning insights into impact, we help organizations manage projects, leverage data, and make informed decisions with precision and confidence.

Project & Program Management

- Program Implementation & Coordination
- Monitoring, Evaluation & Learning (MEL)
- Financial & Resource Management
- Risk & Quality Management
- Capacity Building & Team Development

Research & Analysis

- Qualitative and Quantitative Research Design
- Socio-economic and Behavioral Studies
- Needs Assessments and Feasibility Studies
- Policy Analysis and Development
- Evidence & Knowledge Products
- PDM and Impact Assessments

GeoSpatial & Natural Resources Management

- Integrated Geo-Spatial Intelligence & Planning
- Geo-Spatial Analytics & Decision Support
- Environmental Resource Management
- Remote Sensing & Earth Observation Solutions
- Spatial Data Infrastructure & Advisory Services
- Geo-Information Systems & Environmental Intelligence

Core Values

Integrity &
Transparency

Innovation &
Excellence

Collaboration &
Impact

Confidentiality &
Trust

At Ellipsis Global Inc, we strictly adhere to international data protection standards and ethical guidelines for handling personally identifiable information (PII). All client and beneficiary data are managed with the highest level of confidentiality, integrity, and security.

Our systems comply with GDPR principles and internal Data Protection Policies to ensure that privacy and trust remain at the core of every project we deliver.

Our Clients

Ellipsis Global Inc, we partner with both individuals and institutions, delivering tailored solutions that align with each client's goals and context.
